

# EmBe EDUCATION

## PRESCHOOL

One of the best ways to help children succeed is to teach them to be confident thinkers.

Our EmBe Education Curriculum for Preschool (ages 3-5) prepares your child for Kindergarten and beyond through programs that build character, curriculum that drives curiosity, and environments that empower children to thrive.

### EXPERIENCE THE ADVANTAGE AT EMBE EDUCATION:

- Our education program focuses on development through intentional play-based curriculum, environments and character growth.
- An investment in Early Education at EmBe means a lifelong learning advantage for your child.
- A robust nutrition program with locally sourced meat, fresh and frozen fruits, vegetables, dairy and whole grains included in every meal.
- **In support of our first families, use the code FOUNDINGFAMILIES when enrolling to waive your registration fee**

For more information or to enroll, scan the QR code or visit [embe.org/embe-education-heritage](https://embe.org/embe-education-heritage)

**So much of my child's academic success I attribute to their early start in EmBe.**

Our daughter has been at EmBe since she started childcare at 8 months old. Now that she is five and will be going to Kindergarten this fall, I look back on our experience with EmBe, and I am so thankful that this team of caretakers helped raise my girl into the sweet and fun person she is.

She has always felt that she can be 100% herself at EmBe - and that type of safe space and comfort fosters so much love and happiness."

- EmBe South Parent
